

## Who is Crash? Find the Product

Cut out cards, mix up and deal out. Follow the sequence and answer for the card you have. More players are better. The winner is the player who is Crash at the end OR the winner can be the first person out of cards. Line up your cards in order of the answers to make it easier. You can try making up your own game. What would happen if you change the first card to "I am 4, who is  $3 \times 4$ ?" and the last card to "I am Crash, who is  $2 \times 2$ ?" Could you play for *infinity*?

<p><b>I Start!</b></p> <p>-----</p> <p>Who is <math>3 \times 4</math></p>	<p>I am 12</p> <p>-----</p> <p>Who is <math>8 \times 4</math></p>	<p>I am 32</p> <p>-----</p> <p>Who is <math>2 \times 3</math></p>
